September	801-900
October	901-1016
November	1017-1140
December	1141-1252

The index to Volume 31 is composed of three parts: a subject index, an author index and an advertiser index.

The subject index is made up mainly of terms constructed by *International Pharmaceutical Abstracts*. The *IPA* index is an alphabetical, open-ended controlled vocabulary index which makes use of standardized headings. The subject index also notes all regular *Journal* columns, and under the respective column headings, the titles of editorials and books reviewed, "Equipment and Supplies" and "News" items, and reports from affiliated chapters in "ASHP Affiliates."

Subject Index

A

AAAS, see American Association for the Advancement of Science

Abortifacients; prostaglandin; derivatives, review, historical development and current therapy, 355

Absorption

lidocaine; containers, plastic i.v., 72
methohexital; containers, plastic i.v., 72
pentobarbital; containers, plastic i.v., 72
tubocurarine; containers, plastic i.v., 72
vitamins; containers, plastic i.v., 72
warfarin; containers, plastic i.v., 72

Additives

injections; administration, retrograde technique, in patients, 740; intravenous, contamination, comparison, commercial and hospital prepared products, 733; intravenous, microbiological contamination, surveillance program in hospital, 340; intravenous, preparation, training program, supportive pharmacy personnel, 467; mixing, comparison, glass and polyvinyl chloride containers, 736

Administration

hospital pharmacy; guidelines, for pharmaceutical representatives, committee, 167;

technicians, attitudes of pharmacy directors, 932

policies and procedures; drugs, investigational, protocols, single and double blind studies, 979

Adsorption

ethylene oxide; sterilization, hemolytic effects of residues, 684

lidocaine; containers, plastic i.v., 72
methohexital; containers, plastic i.v., 72
pentobarbital; containers, plastic i.v., 72
tubocurarine; containers, plastic i.v., 72
vitamins; containers, plastic i.v., 72
warfarin; containers, plastic i.v., 72

Adverse drug reactions, see **Drugs**, adverse reactions

Alcohols, ethyl; toxicity; sterilization, residues, hemolytic effects, 684

American Association for the Advancement of Science; annual meeting, 1975, 1070

American Journal of Hospital Pharmacy; statement of ownership, management and circulation, 1030

American Society of Hospital Pharmacists advertising; policy, statement of, 687

affiliated state chapters; list of officers, 1128
annual meeting; 1974, program, 589

Board of Directors; actions, May, August 1974 meetings, 1068; November 19-20, 1973

meeting, 171

Commission on Goals; proposed directions in organized health care delivery, 1066

Constitution and Bylaws, 1130

councils; reports of, 1120

current studies; index, 172

directory; officers, councils and committees, 1135

Harvey A. K. Whitney Lecture Award; 1974, Society goals, 1044

hospital drug control systems; statement, 1198

House of Delegates; 1974 meeting, proceedings, 1101; regulations for, 1134

institutional use of controlled substances; guidelines, 582

officers; reports of, 1108

proposed directions; in organized health care delivery, 1066

residents; in training, accredited programs, roster of, 377

American Society of Hospital Pharmacists Research and Education Foundation; directory; officers, staff and advisory panel, 1140

Amino acids

incompatibilities; electrolytes, formation of calcium-phosphate precipitate, 244
stability; hyperalimentation, commercial so-

annual meeting; 1974, program, 589

Board of Directors; actions, May, August 1974 meetings, 1068; November 19-20, 1973

meeting, 171

Commission on Goals; proposed directions in organized health care delivery, 1066

Constitution and Bylaws, 1130

councils; reports of, 1120

current studies; index, 172

directory; officers, councils and committees, 1135

Harvey A. K. Whitney Lecture Award; 1974, Society goals, 1044

hospital drug control systems; statement, 1198

House of Delegates; 1974 meeting, proceedings, 1101; regulations for, 1134

institutional use of controlled substances; guidelines, 582

officers; reports of, 1108

proposed directions; in organized health care delivery, 1066

residents; in training, accredited programs, roster of, 377

American Society of Hospital Pharmacists Research and Education Foundation; directory; officers, staff and advisory panel, 1140

Amino acids

incompatibilities; electrolytes, formation of calcium-phosphate precipitate, 244
stability; hyperalimentation, commercial so-

lutions, 776

Aminoglycosides; dosage; in renal failure patients, 36

Amphotericin B; dosage; in renal failure patients, 36

Ampicillin; injections; stability, effects, hydrogen ion concentration, 745

Analgesics and antipyretics; prescribing; dosage, and choice, 780

Analysis

methadone; liquids, 1193

prostaglandin; derivatives, discussion, 355

theophylline; elixirs, UV spectrometry following chromatographic separation, 183

Antibiotics

cefazolin; stability, solutions, i.v., analysis, 296

cephalosporin; derivatives, resistance, determination, computerized system, in hospital, 262

dosage; and pharmacokinetics, in renal failure patients, 137

dosage; in renal failure patients, 36

injections; intravenous, additives, retrograde technique, in patients, 740

prescriptions; patients, compliance, pharmacist education, 479

Anticoagulants

patient information; profile, system, monitoring patients with prosthetic heart valves, 258

warfarin; sodium succinate, sorption, containers, plastic i.v., 72

Anticonvulsants; therapy; review, 1170

Antidepressants

anxiety; rational therapy, in patients, 1077

nortriptyline; dosage schedules, methodology, pharmacokinetics, 59

Antidiabetic agents; therapy; lack, aspects, secondary failure, recognition and management, 1212

Antihistamines; anxiety; rational therapy, in patients, 1077

Anti-infective agents

dosage; in renal failure patients, 137

resistance; hospitals, monitoring, computerized systems, 262

Antineoplastic agents

cyclophosphamide; pigmentation, hands and feet, in patient, 1074

drug information; pharmacists, role, in cancer research hospital, 372

Antituberculars; dosage; and pharmacokinetics, in renal failure patients, 137

Automation; cards; magnetic, typewriter system, control, expiration dates, emergency kit drugs, 375

Automation, data processing, computers

anti-infective agents; resistance, monitoring, in hospital, 262

dosage schedules; determination, in patients with normal and impaired renal function, 67

drug distribution systems; unit dose, cost, comparison, adult and pediatric patients, 578

hospital pharmacy; effects, on manpower, 175; systems, development, discussion, 281

hyperalimentation; injections, pediatrics, 752

procainamide; dosage schedules, determination, blood level vs. time profiles in patients, 53

theophylline; dosage schedules, determination, blood level vs. time profiles, in patients, 53

utilization review; drugs, in hospital pharmacy, 508

B

Bacitracin; pharmacokinetics; and dosage, in renal failure patients, 137

Barbiturates; anxiety; rational therapy, in patients, 1077

Benzodiazepines; anxiety; rational therapy, in patients, 1077

Blood levels

digitalis; glycosides, dosage schedules, in patients, 855

procainamide; dosage schedules, effects, computer determination, 53

theophylline; dosage schedules, effects, computer determination, 53

Current Therapy—1974, 1087

Drugs in Current Use and New Drugs—1974, 697

Drugs of Choice 1974—1975, 390

Handbook of Clinical Drug Data, Third Edition, 179

Handbook of Poisonings: Diagnosis and

Treatment, Eighth Edition, 786

Hospital Pharmacy, Third Edition, 1007

Patient Dosage Instructions—A Guide for Pharmacists, 286

Planning for Hospital Pharmacies, 787

Principles of Drug Action: The Basis of Pharmacology, Second Edition, 1007

Psychotropic Drugs: A Manual for Emergency Management of Overdose, 1008

Radiopharmaceuticals and Labelled Compounds, 1011

Review of Medical Pharmacology, Fourth Edition, 1087

Books Received, 92, 286, 499, 698, 897, 1088, 1221

Buffers; cephalothin; solutions, lack, effects, on incidence of phlebitis, in patients, 266

C

Calcium glucoheptonate; incompatibilities; amino acids, formation of calcium-phosphate precipitate, 244

Caloric agents

amino acids; incompatibilities, electrolytes, formation of calcium-phosphate precipitate, 244

dosage; pediatrics, computer-assisted, hyperalimentation solutions, 752

hyperalimentation; injections, commercial formulations, physio-chemical considerations in selection, 236; therapy, survey, patients, complications and prescribing, 228

Carbenicillin

contamination; particles, comparison of spray dried and lyophilized, photomicrographic technique, 1189

resistance; determination, computerized system, in hospital, 262

Cardiac drugs

patient information; programs, coronary drug information, provided by pharmacists, 569

lidocaine; sorption, containers, plastic i.v., 72

prescriptions; outpatients, prescribing and refilling by pharmacist, 254

procainamide; dosage schedules, computers, determination, blood level vs. time profiles, in patients, 53; dosage schedules, computers, determination, in patients with normal and impaired renal function, 67; rational therapy, arrhythmias, in patients, 889

Cefazolin; stability; solutions, i.v., analysis, 296

Cephalosporin

derivatives; dosage, in renal failure patients, 36; resistance, determination, computerized system, in hospital, 262

Cephalothin; adverse reactions; phlebitis, lack, effects, buffered solutions, in patients, 266

Chloramphenicol; pharmacokinetics; and dosage, in renal failure patients, 137

Chloroquine; pharmacokinetics; and dosage, in renal failure patients, 137

Chlorothiazide; additives; injections, mixing, in glass and PVC containers, 736

Chlorpromazine; dosage schedules; methodology, pharmacokinetics, 59

Chromatography, column; theophylline; elixirs, and UV spectrometry, 183

Clindamycin; pharmacokinetics; and dosage, in renal failure patients, 137

Clinical Forum, 385, 494, 880, 1074, 1212

Clinical pharmacists

education; selection, and evaluation, 448

outpatients; health care, management, role in prescribing, 254

Clinical pharmacy

patient information; monitoring, based on drug information, 562

patients; monitoring, prognostic criteria for selection, 667

residencies; evaluation, 938

services; costs, comparison, 3 hospitals, 947

Closures

containers; prescriptions, moisture penetration, 600

safety; tests, moisture penetration, prescription containers, 600

Cobalt; hyperalimentation; injections, use, 759

Collective bargaining; pharmacists, hospital; attitudes, survey, 456

Colorimetry; methyl salicylate; liniments, 1001

Compatibility Digest, 775, 1076

Computer Concepts, 175, 281, 508

Consumers; health care; quality, assurance, viewpoint, 664

Containers

plastics; injections, incompatibilities, leaching of plasticizers determined by UV spectrometry, 149

prescriptions; tests, moisture penetration, 600
injections; additives, mixing, comparison, glass and polyvinyl chloride, 736; intravenous, contamination, microbiological, comparison, glass bottle and plastic bag systems, 726; plastics sorption, drugs, study, 72

Contamination

carbenicillin; particles, comparison of spray dried and lyophilized, photomicrographic technique, 1189

ethylene oxide; sterilization, hemolytic effects of residues, 684

microbiological; injections, additives, surveillance program in hospital, 340; injections, i.v., comparison, commercial and hospital prepared products, 733; injections, i.v., comparison, glass bottle and plastic bag systems, 726; intravenous, comparison, minibag, minibottle and inline burette, 961

Contraceptives, oral; prescriptions; outpatients, prescribing and refilling by pharmacist, 254

Control

contamination; injections, additives, surveillance program in hospital, 340; injections, i.v., monitoring, 733

drugs, investigational; pharmacists, role, in research hospital, 368

expiration dates; emergency kits, use of magnetic card typewriter system, 375

Control of Poisonings, 966

Control, quality

hyperalimentation; survey, quality care, in patients, 228

injections; pyrogen, in vitro limulus tests, 688

Copper; hyperalimentation; injections, use, 759

Corticosteroids, see Steroids, corticosteroids

Costs

clinical pharmacy; services, comparison, 3 hospitals, 947

drugs; computers, system, in hospital pharmacy, 281; hospital pharmacy, effects of computers, 175; inpatients, per day, methodology, 1179; patients, chronic, 1048

hospital pharmacy; charges, per diem system, development, 476

injections; intravenous, comparison, minibag, minibottle and inline burette, 961

packaging; drugs, program, model, 954

patient information; profile, decrease duplicate labeling system, discussion, 79

prescriptions; hospital pharmacy, and prescription charges, survey, 870

Current Literature, 91, 179, 286, 390, 449, 606, 697, 786, 895, 1006, 1085, 1220

Cyclophosphamide; adverse reactions; pigmentation, hands and feet, in patient, 1074

D

Dapsone; pharmacokinetics; and dosage, in renal failure patients, 137

Desorption; ethylene oxide; plastics, and rubber, residue levels, and toxicity tests, in animals, 558

Devices; sterilization; ethylene oxide, hemolytic effects of residues, 684

Dextrose; effects; sorption, plastic i.v. fluid bags, drugs, study, 72

Di-2-ethylhexyl phthalate; plasticizers; leaching, from i.v. containers, 149

Diabetes; therapy; drugs, lack, aspects, secondary failure, recognition and management, 1212

Dialysis; hemo-; therapy, ethchlorvynol overdosage, in patient, 986

Diazepam; dosage schedules; methodology pharmacokinetics, 59

Digitalis; glycosides; dosage schedules, reduced toxicity, in patients, 855

Digitoxin; dosage schedules; toxicity, reduction, in patients, 855

Digoxin; dosage schedules; toxicity, reduction, in patients, 855

Diluents; effects; sorption, plastic i.v. fluid bags, drugs, study, 72

Diphenylhydantoin; additives; injections, mixing, in glass and PVC containers, 736

Diseases; chronic; patients, health care, problems, 1048

Disinfectants; 1,5 pentanediol; solutions, potentiated acid; use; discussion, 546

Dosage

aminoglycosides; in renal failure patients, 36

amphotericin B; in renal failure patients, 36

analgesics and antipyretics; prescribing, and choice, 780

antibiotics; in renal failure patients, 36

anti-infective agents; in renal failure patients, 137

cephalosporin; derivatives, in renal failure patients, 36

flucytosine; in renal failure patients, 36

griseofulvin; in renal failure patients, 36

hyperalimentation; pediatrics, computer-assisted, 752

iron; dextran, injections, i.v., guidelines, total dose therapy, 592

penicillin; derivatives, in renal failure patients, 36

polymyxin; derivatives, in renal failure patients, 36

tetracycline; derivatives, in renal failure patients, 36

Dosage schedules

chlorpromazine; methodology, pharmacokinetics, 59

computers; determination, in patients with normal and impaired renal function, 67

diazepam; methodology, pharmacokinetics, 59

digitalis; glycosides, reduced toxicity, in patients, 855

digitoxin; toxicity, reduction, in patients, 855

digoxin; toxicity, reduction, in patients, 855

lithium; methodology, pharmacokinetics, 59

nortriptyline; methodology, pharmacokinetics, 59

pharmacokinetics; effects, methodology, 59

procainamide; computers, determination, blood level vs. time profiles, in patients, 53

theophylline; computers, determination, blood level vs. time profiles, in patients, 53

Drug administration

cephalothin; catheters, i.v. vs. small vein needles, in incidence of phlebitis, in patients, 266

iron; dextran, i.v., guidelines, total dose therapy, 592

injections; intravenous, additives, retrograde technique, in patients, 740; intravenous, contamination, monitoring, 733; intravenous, refrigerated, effects on body temperature, 743

routes; intravenous, comparison, minibag, minibottle and inline burette, 961

Drug analysis, see Analysis

Drug distribution systems

future; effects, pharmacy practice, 677

unit dose; costs, comparison, adult and pediatric patients, computerized system, 578; delays, medication delivery, study, 574

Drug information

consultation; pharmacists, and physicians, in hospitals, 247

drug product evaluation program; pharmacists, role, University of Kentucky, 976

drugs, investigational; pharmacists, role, in cancer research hospital, 372

nurses; consultation, pharmacists, 1057

Wheaton Medi-Systems, crimping equipment, 788; oral liquid medication vials, 788; safety caps, 788

Errors, medication

drug distribution systems; unit dose, delays, medication delivery, study, 574

omission; patients, compliance, antibiotic regimens, pharmacist education, 479; patients, compliance, effects, prescription directions and pharmacist education, 362; patients, effects of label directions, 485

patient information; profile, decrease, duplicate labeling system, discussion, 79

procainamide; dosage schedules, computer determination, blood level vs. time profiles, in patients, 53

theophylline; dosage schedules, computer determination, blood level vs. time profiles, in patients, 53

Erythromycin; pharmacokinetics; and dosage, in renal failure patients, 137

Ethchlorvynol; toxicity; overdosage, hemodialysis therapy, in patient, 986

Ethylene chlorohydrin; toxicity; sterilization, residues, hemolytic effects, 684

Ethylene glycol; toxicity; residues, sterilization, residues, hemolytic effects, 684

Ethylene oxide

and derivatives; toxicity, hemolytic effects of residues, 684

residues; safety, in animals and human red blood cells, 558

Excretion

anti-infective agents; in renal failure patients, 137

digitalis; glycosides, dosage schedules, in patients, 855

drugs; lactation, review, in humans, 844

Expiration dates; emergency kits; drugs, control, magnetic card typewriter system, 375

F

FIP, see International Pharmaceutical Federation

Flucytosine; dosage; in renal failure patients, 36

Flurazepam; rational therapy; discussion, in humans, 990

Forms; radiopharmaceuticals; standards, 165

Formularies; hospital pharmacy; computers, effects, discussion, 281

Formulary system; hospitals; legal aspects, discussion, 86

Formulations

hyperalimentation; injections, commercial, physio-chemical considerations in selection, 236

radiopharmaceuticals; preparation, by centralized radiopharmacy service, 158

G

Gentamicin; dosage schedules; computers, determination, in patients with normal and impaired renal function, 67

Glass

containers; injections, additives, mixing, comparison, polyvinyl chloride, 736; injections, i.v., contamination, microbiological, comparison, plastic bag systems, 726; prescriptions, tests for moisture penetration, 600

Glycosides

cardiac; dosage schedules, computers, determination, in patients with normal and impaired renal function, 67

digitalis; dosage schedules, reduced toxicity, in patients, 855

Government Publications, 182, 390, 500, 1222

Griseofulvin; dosage; in renal failure patients, 36

Guidelines

contamination; injections, additives, surveillance program in hospital, 340

drug information; drugs, investigational, in cancer research hospital, 372

patients; monitoring, method for selection, clinical pharmacy, 667

pharmacy; services, evaluations, protocol for conducting studies, 657

representatives, pharmaceutical; hospital pharmacy, committee, 167

utilization review; programs, definition of terms and concepts, 648

Residencies, see Education, pharmaceutical
Resistance; anti-infective agents; hospitals, monitoring, computerized systems, 262

Rubber
 sterilization; ethylene oxide, hemolytic effects of residues, 684; ethylene oxide, residues, levels, and toxicity tests, in animals, 558
Rubefacients; methyl salicylate; liniments, colorimetry, 1001

S

Safety; injections; intravenous, comparison, minibag, minibottle and inline burette, 961
Sedatives and hypnotics

ethchlorvynol; overdose, hemodialysis therapy, in patient, 986
 methohexital; sorption, containers, plastic i.v., 72
 pentobarbital; sorption, containers, plastic i.v., 72
 rational therapy; discussion, in humans, 990
Skeletal muscle relaxants; tubocurarine; sorption, containers, plastic i.v., 72
Sodium chloride; effects; sorption, plastic i.v. fluid bags, drugs, study, 72
Solutions; cefazolin; stability, i.v., analysis, 296

Solvents; injections; effects, leaching of plastics from i.v. bags, 149

Sorption
 lidocaine; containers, plastic i.v., 72
 methohexital; containers, plastic i.v., 72
 pentobarbital; containers, plastic i.v., 72
 tubocurarine; containers, plastic i.v., 72
 vitamins; containers, plastic i.v., 72
 warfarin; containers, plastic i.v., 72

Spasmolytics
 theophylline; dosage schedules, computers, determination, blood level vs. time profiles, in patients, 53; elixirs, UV spectrometry following chromatographic separation, 183

Spectrometry, ultraviolet
 injections; solvents, leaching of plasticizers from i.v. containers detected, 149
 theophylline; elixirs, following chromatographic separation, 183

Spray drying; carbenicillin; comparison, lyophilization, effects on particulate contamination, photomicrographic technique, 1189

Stability
 amino acids; hyperalimentation, commercial solutions, 776; incompatibilities, electrolytes, formation of calcium-phosphate precipitate, 244
 ampicillin; injections, effects, hydrogen ion concentration, 745
 calcium glucoheptonate; incompatibilities, amino acids, formation of calcium-phosphate precipitate, 244

cefazolin; solutions, i.v., analysis, 296
 electrolytes; amino acids, formation of calcium-phosphate precipitate, 244
 injections; containers, plastics, leaching of plasticizers, 149; intravenous, drug sorption by plastic containers, 72; intravenous, refrigerated, time and energy requirements to bring to room temperature, 743
 isoproterenol; hydrochloride, and incompatibilities, discussion, 775
 potassium phosphate; incompatibilities, amino acids, formation of calcium-phosphate precipitate, 244

Standards
 hyperalimentation; health care, survey of quality, improvements recommended, 228
 radiopharmaceuticals; forms, model, 165

Statistics
 costs; drugs, daily drug charge for inpatients, 1179
 hyperalimentation; health care, survey of quality, in patients, 228
 methodology; monitoring, patient selection technique, 667

Sterility; injections; intravenous, surveillance program in hospital, 340

Sterilization
 ethylene oxide; residues, hemolytic, effects, 684; residues, safety, in animals and human red blood cells, 558

Steroids, cortico-; hydrocortisone; sodium succinate, sorption, containers, plastic i.v., 72

Storage
 amino acids; stability, effects, commercial hyperalimentation solutions, 776
 cefazolin; solutions, i.v., recommendations, 296

injections; intravenous, refrigerated, time and energy requirements to bring to room temperature, 743

Streptomycin; dosage schedules; computers, determination, in patients with normal and

impaired renal function, 67
Sulfonamides; dosage; and pharmacokinetics, in renal failure patients, 137
Surface active agents
 nonionic; and 1,5 pentanediol, disinfectant effects, 546
 polysorbates; 20, and 80, leaching of plastics from i.v. bags, 149
Sympathomimetic agents; isoproterenol; hydrochloride, stability, and incompatibilities, discussion, 775
Syringes; unit dose; filling, aseptic, in hospital pharmacy, 762

T

Technetium; Tc 99m; formulations, preparation, by centralized radiopharmacy service, 158
Temperature
 amino acids; stability, effects, commercial hyperalimentation solutions, 776
 cefazolin; solutions, i.v., effects on stability, 296
 effects; sorption, plastic i.v. fluid bags, drugs, study, 72
 injections; intravenous, room, time and energy requirements following refrigeration, 743
Tests
 containers; prescriptions, moisture penetration, 600
 pyrogen; limulus, in vitro, 688
Tetracycline; derivatives; dosage, in renal failure patients, 36
Theophylline
 dosage schedules; computers, determination, blood level vs. time profiles, in patients, 53
 elixirs; spectrometry, ultraviolet, following chromatographic separation, 183

Time studies
 drug distribution systems; unit dose, delays, medication delivery, 574
 pharmacists, hospital; hours, 4-day 40-hour workweek, advantages and disadvantages, discussion, 472
Toxicity
 cephalothin; studies, phlebitis, lack, effects, buffered solutions, in patients, 266
 digitalis; glycosides, reduction, dosage schedules, in patients, 855
 drugs; lactation, in humans, 844
 ethchlorvynol; overdosage, hemodialysis therapy, in patient, 986
 ethylene oxide; derivatives, residues, hemolytic effect, 684; studies, residues, lack, in animals and human red blood cells, 558
 hyperalimentation; injections, side effects, hyperosmotic, and acidosis, in patients, 236
 iron; dextran, injections, i.v., guidelines, total dose therapy, 592
 pediatrics; studies, adverse reactions, in hematology-oncology patients, 968
 1,5 pentanediol; studies, animals, 546
 procainamide; dosage schedules, computer determination, blood level vs. time profiles, in patients, 53
 theophylline; dosage schedules, computer-determination, blood level vs. time profiles, in patients, 53
Toxicity, environmental
 infections; hospitals, nosocomial, control, role of pharmacist, 839; nosocomial, hospital surveillance program, 832
Tranquilizers
 anxiety; rational therapy, in patients, 1077
 chlorpromazine; dosage schedules, methodology, pharmacokinetics, 59
 diazepam; dosage schedules, methodology pharmacokinetics, 59
 rational therapy; discussion, 1226

Trimethoprim; pharmacokinetics; and dosage, in renal failure patients, 137
Tubocurarine; sorption; containers, plastic i.v., 72

U

Ultrasonics; and 1,5 pentanediol; effects, sterilization, 546
Unit dose, drug distribution systems, see **Drug distribution systems, unit dose**
Unit dose, packaging, see **Packaging**
Utilization review
 committees; pharmacists, consultation, drug information, nurses, 1057
 drugs; computers, use, in hospital pharmacy, 508
 guidelines; definition of terms and concepts, 648

V

Vancomycin; pharmacokinetics; and dosage, in renal failure patients, 137
Virginia Society of Hospital Pharmacists; chapters; students, description, 866
Vitamins; sorption; containers, plastic i.v., 72

W

Warfarin; sorption; containers, plastic i.v., 72

Z

Zinc; hyperalimentation; injections, use, 759
